Complete freedom to plan your kitchen.

The new Siemens modulAir provides modern ventilation solutions to fit with Domino hobs and perfectly integrate into your kitchen without compromising design.

siemens-home.bsh-group.com/uk

Siemens. The future moving in.

Integrated ventilation for clear views through the kitchen.

Kitchen designs are unique to all of us, so it's important to have a range of extraction that offers more flexibility. The new Siemens modulAir allows various combinations with Domino hobs, opening your kitchen to more possibilities.

Installed into the work surface, they also give you a clear and uncluttered view in open plan kitchens, perfect for the most impressive kitchen designs. Easy operation comes as standard with the sleek touchControl functionality that not only looks good but makes the hood quick to clean.

40053_Domino_Hoods_12pp_Brochure_A4.indd 2-3 23/08/2016 13:02

modulAir extractors. Flexibility in design.

Integrated worktop ventilation for a fresh and clear kitchen space.

Seamlessly integrated with a sleek design.
The new Siemens modulAir is right where it is needed: next to the hob for effective extraction. The space-saving installation integrates itself perfectly into any kitchen. Seamlessly integrated into the worktop for easy kitchen planning, whether in an island installation or against a wall unit. You can even fit two reduced depth drawers in the base unit.

There are many different installation options to find the perfect combination for your kitchen. It can also be used in either ducted or recirculation mode.

Effective extraction without limitation.
Whether installed in ducted or recirculation mode, both are powered by the powerful, energy efficient and quiet iQdrive motor.

Effectively removing unwanted steam, grease and cooking smells. No more misted windows, or greasy surfaces - just fresh smelling surroundings.

The powerful motor has a specially designed housing meaning an even quieter operation and fewer disturbances for you, ideal in an open plan kitchen.

Siemens modulAir (LF16VA570B).

Siemens modulAir and Domino hob range overview

iQ700 Siemens modulAir

LF16VA570B stainless steel

Key features
- touchControl
- 3 power levels, plus 1 Intensive setting
- Filter saturation indication
- Dishwasher proof filter

Other features

Ducted:
Extraction rate (max. normal) 540 m3/h
Extraction rate (intensive) 600 m3/h

Noise:
Max. Normal 67 dB(A)

Recirculation kit available: (LZ58000)

Recirculation:
Extraction rate (max. normal) 430 m3/h
Extraction rate (intensive) 480 m3/h

Energy Label: A+

iQ700 Domino flexInduction Hob

EH375MV17E black glass with stainless steel side trim

Key features
- 1 flexInduction zone – provides more flexibility in cooking
- 2 Induction zones
- 17 power levels – for greater temperature control
- touchSlider operation – smooth and accurate control
- Power boost function – shorter heating times
- Front facet with side trim

Siemens modulAir and Domino hob combinations

Combination Pack 3

SIZGB01923

Includes:

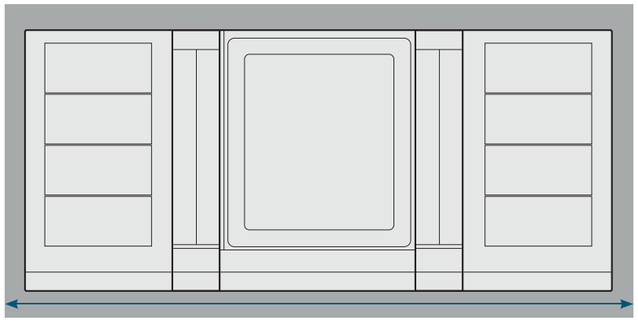
2 x Domino flexInduction hobs (EH375MV17E)

1 x Domino Teppan Yaki (ET475MY11E)

2 x Siemens modulAir (LF16VA570)

Installation notes:

3 Domino units (30/40/30) – 2 modulAir units

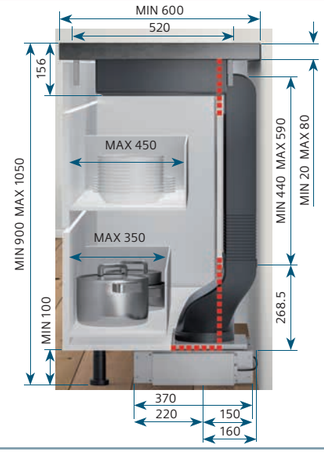


Required base unit **1600mm**

Ventilation recommendations

- **Can only be used with one Domino Teppan Yaki.**
- **Duct system cannot be installed under a Domino Teppan Yaki.**
- **Not suitable for installation with 60–90cm hobs.**
- **Observe required space for ducting when two ventilation units are used (Combination Pack 3).**
- **The use of drawers in the cabinets is possible, with reduced depth.**
- **The modulAir unit can be installed in a standard unit - it does not need to be installed in an island.**
- **Not suitable for use with Gas Wok Domino Hob.**
- **A heat deflector is required for use with two burner Gas Domino Hob.**

Wall – 600mm worktop



Wall – 700mm worktop
